- Pictures, Video and Podcasts
- Launched on www.girlqode.com

Hamburger menu

Downloadable links and email links

Podcast and Video

User Experience

- Simple and Clean
- Hamburger Menu (top right)

- Font, Size and Colour of Text readable
- Consistent Layout
- Image Layout
- Easy to find contact details

Build Process

- Flexbox
- Grid
- Font Awesome
- Photos, Videos and Podcasts
- Links
- 5 HTML pages
- 1 CSS

Challenges

- Re-did the website from scratch as i didn't like my first draft. Even though it was easier the second time around it was time consuming.
- Focused too much on design i.e colours
- Trying to center everything
- Padding can be tricky
- Desktop and iPad responsiveness > i created the whole site and faced issues with iPad and Desktop. I should have done one page, optimised it and then moved onto the next
